Santa Cruz METRO's Bus Stop Master Plan

Project Overview

METRO is developing a Bus Stop Master Plan to create a systemwide roadmap for improving bus stops across the METRO service area. The Plan will assess current bus stop conditions and identify high-priority improvements. The result of this work will be updated bus stop guidelines to help METRO plan future service and operations improvements.

The Plan Will Consider

- **Safety and Security**
- **Accessibility**
- **Station Amenities**
- **Wayfinding Signage**
- **Maintenance**

Project Goals

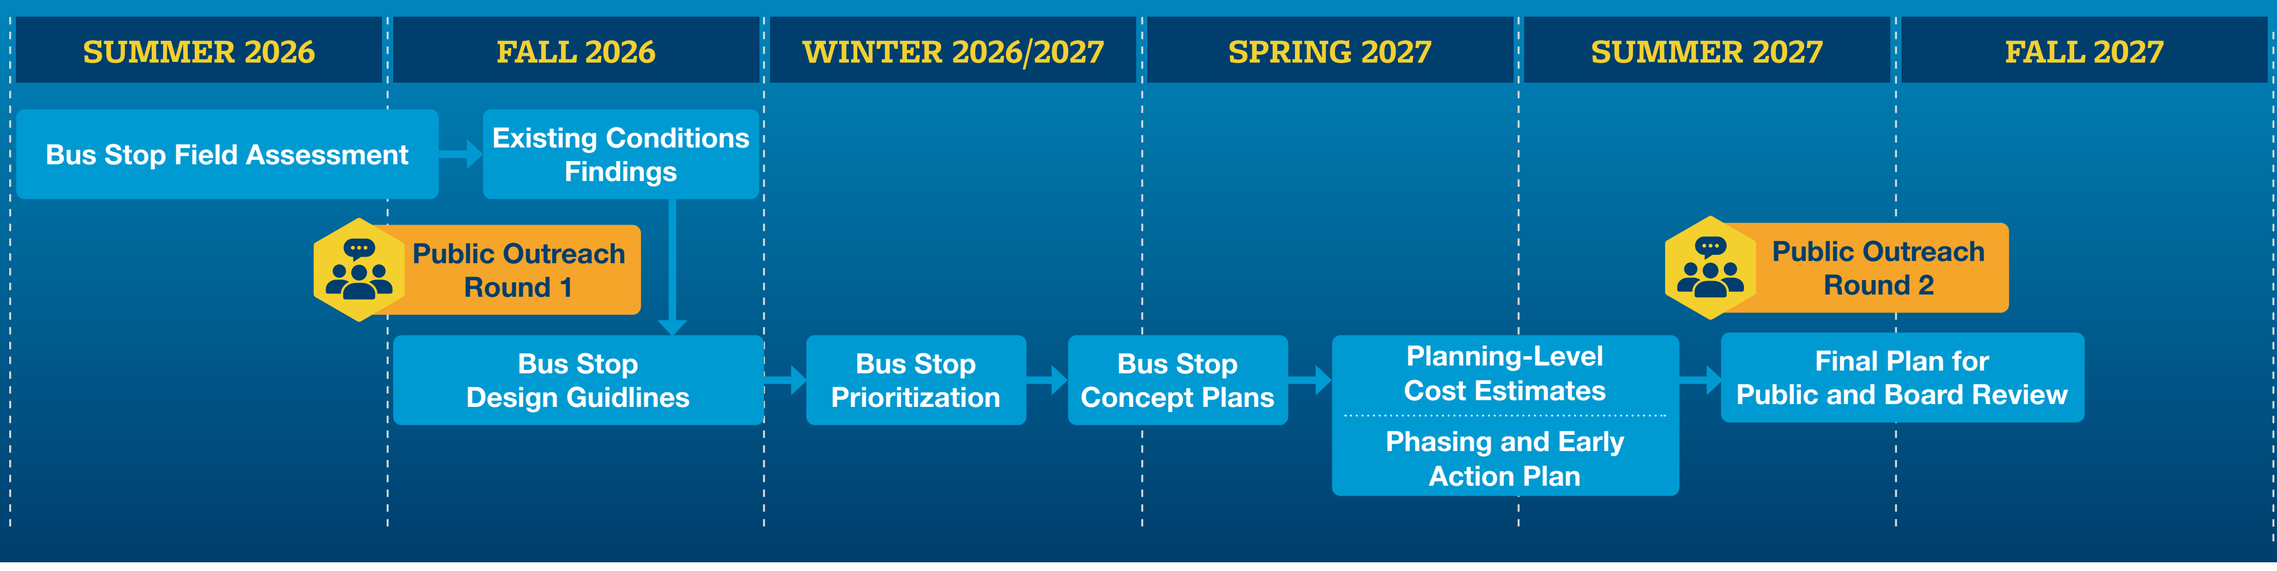
Create Complete Bus Stop Inventory
Understand the condition and needs of bus stops across the system.

Prioritize Improvements
Identify where improvements and investments are needed most.

Improve Bus Stops
Make bus stops safer, more accessible, comfortable, and convenient.

Create Clear Design Guidelines
Set consistent standards for planning and improving bus stops.

Schedule



Get Involved and Share Your Thoughts!

If you ride METRO, tell us about your experience.

- **What matters most to you at a bus stop?**
- **What's working well?**
- **What could be improved?**
